

CLAIMS

What is claimed is:

1. A method of treating sebaceous gland disorders comprising administering to a patient in need of said treatment an effective amount of a compound named [(2,4,6-triisopropyl-phenyl)-acetyl]-sulfamic acid 2,6-diisopropyl-phenyl ester or a pharmaceutically acceptable salt thereof. ✓
2. A method according to Claim 1 wherein said disorder is seborrhea.
3. A method according to Claim 1 wherein said disorders are acnes.
4. A method according to Claim 1 wherein said disorder is chloracne.
5. A method according to Claim 1 wherein said disorder is ciliaris acne.
6. A method according to Claim 1 wherein said disorder is cystic acne.
7. A method according to Claim 1 wherein said disorder is keratosa acne.
8. A method according to Claim 1 wherein said disorder is vulgaris acne.
9. A method according to Claim 1 wherein said disorder is senile acne.
10. A method according to Claim 1 wherein said disorder is medicinal acne.
11. A pharmaceutical composition comprising an acne-inhibiting amount of a compound named [(2,4,6-triisopropyl-phenyl)-acetyl]-sulfamic acid 2,6-diisopropyl-phenyl ester and a pharmaceutically acceptable carrier. ✓
12. A method of treating acnes comprising administering to a patient in need of said treatment an acne-inhibiting amount of a compound named ✓

[(2,4,6-triisopropyl-phenyl)-acetyl]-sulfamic acid 2,6-diisopropyl-phenyl ester or a pharmaceutically acceptable salt thereof.

13. The use of a compound named [(2,4,6-triisopropyl-phenyl)-acetyl]-sulfamic acid 2,6-diisopropyl-phenyl ester for the manufacture of a medicament for the treatment of acnes.
14. A method according to Claim 1 wherein said disorder is perioral dermatitis.
15. A method according to Claim 1 wherein said disorder is rosacea.
16. A method according to Claim 1 wherein said disorder is corticosteroid-induced acneiform lesions.
17. A pharmaceutical composition comprising a sebaceous gland secretion-inhibiting amount of a compound named [(2,4,6-triisopropyl-phenyl)-acetyl]-sulfamic acid 2,6-diisopropyl-phenyl ester and a pharmaceutically acceptable carrier.
18. The use of a compound named [(2,4,6-triisopropyl-phenyl)-acetyl]-sulfamic acid 2,6-diisopropyl-phenyl ester for the manufacture of a medicament for the treatment of diseases caused by sebaceous gland disorders.
19. A method of inhibiting AFAT comprising administering to a patient in need of said treatment an AFAT inhibiting amount of a compound named [(2,4,6-triisopropyl-phenyl)-acetyl]-sulfamic acid 2,6-diisopropyl-phenyl ester or a pharmaceutically acceptable salt thereof.
20. A method of inhibiting ACAT and AFAT comprising administering to a patient in need of said treatment an ACAT and AFAT inhibiting amount of a compound named [(2,4,6-triisopropyl-phenyl)-acetyl]-sulfamic acid 2,6-diisopropyl-phenyl ester.

21. A method of inhibiting sebum production in a human in need of said treatment comprising administering to said human a sebum production-inhibiting amount of [(2,4,6-triisopropyl-phenyl)-acetyl]-sulfamic acid 2,6-diisopropyl-phenyl ester or a pharmaceutically acceptable salt thereof.

5

22. A method according to claim 21, which is used to treat oily skin.
